

SETTING UP TRANSLATION SERVICE FLIER

* If you do not have Adobe Reader you will need to download it for free online:

<https://get.adobe.com/reader/>

STEP 1: Open this document in Adobe Reader.

STEP 2: On page 2, the legal Name of your franchise's Business Entity where indicated. Then edit in your entity or clinic's contact information including Name, phone number, email address and mailing address for the person who will handle correspondence for this service.

STEP 3: Review page 3 of your state language listing. If one of the 15 languages list no translation an editable text field has been placed in telling you to seek a local translator, who can translate the English version for you and assist you in finding a translation service to make arrangements with to be an available translator for that language. *See footnote.

STEP 4: Once all edits have been made to this document, **SAVE A COPY** of this PDF file **before closing** it so that your changes will save. Print pages 2-3 for use in the clinic.

*If Language Translation is missing on Page 3 of this PDF file, please flow in the translation for a missing local language over top of the text provided in the text editing field. The following should be translated by your local translator for this language:

Written in thier language: ***Language Name***

Translate the following: **Point to your language. An interpreter will be called. The interpreter is provided at no cost to you.**

Please Note: Some foreign language fonts are not easily obtained and may use characters that will be difficult to obtain. Check with your local hospital to see how they have done this for their facility. It is possible that your local translator may need to hand write the language translation on a label to place onto a missing language if shown on Page 3. As of 2016, all missing languages are indicated by the Federal Government to be spoken in the home and most often these language speakers (above the age of 5) are able to speak English if living in the US. It is possible that the language is used in speech only. If that is the case, have your front desk call a local translator for that language to assist over the phone with the patient if needed.
